Introduction to the Resource Guide

The Community Resource Guide is designed to put the help you need directly at your fingertips. Each section is organized to allow for the most accessible services to be listed first.

Services (if available) that are all ages, open 24 hours a day/ 7 days a week, and easiest to access will be displayed first.

We recommend downloading it to your phone or other mobile device. Once opened, you can find the assistance that you need in as little as three taps of a finger.

Tap 1: Open the PDF on your phone or mobile device

Tap 2: Pick the service you need from the table of contents

Tap 3: Touch the phone number, text option or website of the listed service and you're there

This guide will be updated every six months to ensure that all of the information is up to date.

Thank you,

Peterborough Youth Services
